

SnapScan

How to download and install SnapScan

SnapScan is a mobile payments app, providing South Africans with the most convenient way to securely pay with their phones. Collegiate Girls' High School has chosen this app as their preferred method of payment for purchasing of textbooks through the school this year.

SnapScan allows parents to use either their debit card or credit card to make payments, at no additional cost to the parent. The app is also free to download and is less than 10mb in size.

Please follow the below, easy steps on how to download and install the app on your phone or tablet:

1. SnapScan is available to download free of charge from either the Google Play Store and IOS Apple Store from a cellphone or tablet.

2. Once downloaded, you will be prompted provide your personal details as well as your credit or debit card details. SnapScan works with most MasterCard or Visa cards from any South African bank. Your card details are kept safely encrypted on your phone. You will also be required to setup a pin number during the installation process.
